No 11 o'clock hunger after this breakfast

THE MILK IS ALREADY IN THE FLOUR

When it's warm weather and you don't want to eat a lot of heavy food, then an Aunt Jemima breakfast fills the bill better than ever! For these golden-brown, tender cakes "saw with milk" when a less satisfying breakfast won't, and you don't get that starved feeling along towards noon.

Just the breakfast for summer, because Aunt Jemima Pancakes are so easily easy to prepare, too. All the ingredients come ready mixed in the flour—except the milk (powdered). The simple addition of water makes perfect pancakes. Get a package from your grocer. It makes delicious muffins, too.

TEXAS CHECKING WASTE OF GAS

(By Associated Press.)
AUSTIN, Texas, April 1.—The waste of natural gas in Texas, which at one time amounted to 300,000 cubic feet, or the fuel equivalent of 25,000 tons of coal per day, has been reduced until there is no considerable waste, according to a statement from the Oil and Gas division of the Texas railroad commission.

The statement said in part: "The railroad commission gives credit for this happy condition largely to the operators, who have such a splendid spirit of co-operation, especially so when there is so little market for gas as at present, and where, in many cases if the wells were allowed to blow, they might come in as good oil producers as now."

HISTORIC BAR CLOSES DOORS

(By Associated Press.)
SAN FRANCISCO, April 1.—The Bank Exchange saloon, the bar, flag stone floor and fixtures of which were brought "around the Horn" in the gold rush days, is closed.

Duncan Nicol, known to men and women tourists from many parts of the world as "Pluto John" because of the famous punch he served, sold out several months ago. His successors, John Lanner, has given up after a futile effort to continue the place on soft drinks and its reputation as a rendezvous for bon vivants since 1853.

Lanner said he intends to present the saloon's collection of quaint old prints and engravings to the Golden Gate Park museum.

SACRED CATTLE PRIZE WINNERS

(By Associated Press.)
FORT WORTH, Texas, April 1.—The great sacred cattle of India have gone to home pastures with blue ribbons for the first time from the Fort Worth fat stock show, getting a new era in the industry in the southwest.

The Brahmas came from the great Pierce ranches in Wharton county. What attracted most interest about the "sacred cattle" is the fact that they are tickproof and drought-resistant. Originally pure-breds, these giant, gaunt cattle have been crossed with Texas stock until they have dropped some of the physical characteristics of their kind. But they still retain the hump and their natural wildness has been intensified.

The power of treaties is vested jointly in the president and in the senate, which is a branch of the legislature.—James Madison.

America has a hemisphere to itself. It must have its separate system of interests, which must not be subordinated to those of Europe.—Thomas Jefferson.

Our diplomatic relations must be on terms of equality and honest friendship with the chief powers of the world, while we avoid entangling participation in their intrigues, their passions and their wars.—George Bancroft.

The moral character of the United States is of more importance than any alliance.—John Adams.

We want a man who, standing on a mountain height, sees all the achievement of our past history and carries in his heart the memory of all its glorious deeds and who, looking forward, prepares to meet the labor and dangers to come.—Garfield.

SMALLPOX PATIENT SPENDS NIGHT IN CITY HALL

Suffering from a well-developed case of smallpox, J. H. Shuler went to the Reno city hall Tuesday night and remained there until some time Wednesday. From shortly after 1 o'clock till after midnight he occupied a chair in the sergeant's room of the police station and then was removed to the woman's ward upstairs where he was kept isolated till his removal.

Some people are so conscientious that when they have nothing to worry about they worry about nothing.

It's owing to whose auspices it is under whether it is a brutal prize-fight or a scientific boxing match.

The men who seem most afraid of losing their souls are the narrow-minded they never could have had room for souls.

(By Associated Press.)
EYRETT, Wyo., April 1.—Miss Freda Billings, teacher at the Montana school here, is coaching the school's baseball team. Miss Billings while teaching at Port Angeles, Wash. whipped a school team into good shape and the Monrovia boys are hoping she will have equal success with them. Miss Billings was in playroom work in the past several years ago.

CHAINING RIVER FOR INDUSTRY

LOS ANGELES, April 1.—The problem of improving the basin of the Colorado river will be discussed by more than fifty speakers from all parts of the United States at the annual convention of the League of the Southwest, which opened a three-day session here today.

According to engineers, improvement of the Colorado river would eliminate floods in the southwest, save water to irrigate millions of acres, make possible development of 25,000,000 bracketed horsepower of electrical energy, and result in the southwest supporting a population of 50,000,000.

Officials of the league have expressed the hope the convention would result in indication of all interests in support of some plan for improving the Colorado basin for the benefit of the entire southwest.

PANAMA FILES QUIET PROTEST

(Correspondence—Associated Press.)

PANAMA, March 12.—The United States government has been asked through diplomatic channels immediately to withdraw from the Panama province all American detachments of twenty men of the Thirty-third Infantry, under the command of Major Herbert H. Hays. The troops have been stationed there since the litigation American land owners have pending in the provincial courts. Residents in the province are very much disturbed by their presence.

Justice Alvaro, government lawyer, commenting on the affair to the Associated Press correspondent said:

"Panama is more friendly to the United States than any other country south of the Rio Grande and an American under-land sale agent's occupation is necessary here while the United States' administration has not had a opportunity to effect some of Mexico where women are being controlled and such, with light consideration and consideration day."
